- **Applying a positive psychology perspective:** the practical application of fundamental positive psychology principles through the integration of education, research, community service, and strategic partnership focused on addressing contemporary social challenges to optimize the well-being of individuals, groups, organizations, communities, and society.

APA YANG DIPELAJARI DALAM PSIKOLOGI ?

Psikologi merupakan ilmu yang mempelajari perilaku manusia dan proses mental yang mendasarinya. Psikologi mengungkap mengapa dan bagaimana manusia berpikir, menggunakan perasaan, dan bertindak. Dengan pendekatan *scientific-practitioner model* dan *experiential learning*, proses pembelajaran di Fakultas Psikologi UKWMS memberikan pengalaman menarik dan kreatif yang tidak terbatas pada pembelajaran di dalam kelas saja, tetapi juga di lapangan dan berbasis praktik.

Secara umum, hal yang dipelajari di Prodi S1 Psikologi UKWMS antara lain adalah:

- Proses mental dan kognitif (persepsi, memori, caraberpikir, emosi, dst).
- Perkembangan manusia (saat masih dalam kandungan, anak-anak, remaja hingga dewasa dan lanjut usia).
- Kesehatan mental dan kesejahteraan psikologis (gangguan kesehatan mental seperti depresi dan kecemasan, faktor penyebab, dan dasar-dasar intervensi untuk meningkatkan kesehatan mental dan kesejahteraan psikologis).
- Psikologi sosial (pengaruh dari lingkungan sosial terhadap perilaku individu, kelompok, dan komunitas, membahas topik seperti prasangka, kepatuhan, cinta, dan konflik).
- Metode penelitian (pengumpulan data melalui metode ilmiah kuantitatif dan kualitatif).
- Psikologi positif (pembelajaran konsep-konsep psikologi positif dan aplikasinya dalam lingkup industri dan organisasi, kesehatan, sosial, perkembangan dan pendidikan).

MENGAPA BELAJAR DI FAKULTAS PSIKOLOGI UKWMS ?

Fakultas Psikologi UKWMS merupakan **pelopor Psikologi Positif** di Indonesia. Fakultas Psikologi Positif termasuk salah satu Fakultas Psikologi di Indonesia yang memiliki visi keilmuan psikologi positif dan secara khusus mengajarkan pendekatan tersebut kepada para mahasiswa Prodi S1 Psikologi. Selain pengajaran, karya penelitian dan karya pengabdian kepada masyarakat dari para dosen dan mahasiswa juga berlandaskan pada psikologi positif.

Lebih lanjut, Asosiasi Psikologi Positif Indonesia (AP2i) di bawah Himpunan Psikologi Indonesia (HIMPSI) lahir di UKWMS pada tahun 2017. Hingga saat ini dosen-dosen Fakultas Psikologi UKWMS secara aktif mengembangkan keilmuan psikologi positif dengan berpartisipasi aktif dalam berbagai pertemuan ilmiah, konferensi, dan organisasi psikologi positif dalam lingkup nasional dan internasional.

Selaras dengan misinya, proses pembelajaran di Fakultas dan Prodi S1 Psikologi UKWMS berlandaskan pada *experiential learning* yang berarti **pembelajaran berbasis pada pengalaman atau praktik**. Pembelajaran tidak terbatas di dalam kelas, tetapi juga di luar kelas, melalui praktikum dan *role play*, kuliah praktisi, kuliah lapangan, pembelajaran lintas Prodi, bahkan pemberian kesempatan mobilitas atau pertukaran mahasiswa (nasional dan internasional) serta magang dengan supervisi. Hal ini dimaksudkan untuk memperkaya pengalaman mahasiswa, melatih *soft-skill*, dan menumbuhkan kepekaan dengan situasi lapangan yang akan memperbesar kesempatan untuk diterima dalam dunia kerja.

Fakultas dan Prodi S1 UKWMS melatih mahasiswa untuk **berpikir kritis dan reflektif** mengenai diri sendiri (*self*) dan lingkungannya. Kekuatan (*strength*) mahasiswa dikenali dan didorong untuk dikembangkan melalui kegiatan pembelajaran, pengembangan diri dan karakter, serta ekstrakurikuler. Dengan demikian, lulusan Prodi S1 Psikologi UKWMS diharapkan untuk berkembang menjadi sarjana psikologi yang memiliki perspektif psikologi positif, **bertanggung jawab, berintegritas, siap belajar dan bertumbuh**, menunjukkan **belas kasih**, dan menerapkan nilai-nilai Peduli, Komit dan Antusias (PeKA).

Untuk mendukung metode pembelajaran berbasis pengalaman atau praktik, Fakultas Psikologi dan Prodi S1 Psikologi UKWMS menyediakan fasilitas yang menunjang, seperti:

- Laboratorium psikodiagnostika
- Laboratorium observasi dengan *one-way mirror*
- Laboratorium konseling
- Laboratorium asesmen psikologi
- Laboratorium faksi dan eksperimen
- Laboratorium komputer

WHAT IS STUDIED IN PSYCHOLOGY?

Psychology is the scientific study of human behavior and the underlying mental processes. It uncovers why and how humans think, feel, and act. Guided by the scientist-practitioner model and experiential learning, the educational journey at the Faculty of Psychology at UKWMS offers engaging and creative experiences that extend far beyond the classroom, immersing students in fieldwork and hands-on practice.

In general, the areas of study in the Undergraduate Psychology Study Program at UKWMS include:

- Mental and cognitive processes: exploring perception, memory, thinking patterns, emotions, and other underlying cognitive functions.
- Human development, studying the human lifespan, from prenatal development, childhood, and adolescence through to adulthood and late adulthood.
- Mental health and psychological well-being, examining mental health disorders, such as depression and anxiety, their underlying causes, and the fundamentals of psychological interventions designed to enhance mental health and well-being.
- Social psychology investigates the influence of the social environment on individual, group, and community behavior, covering topics such as prejudice, obedience, love, and conflict.
- Research Methods, mastering data collection and analysis through both quantitative and qualitative scientific methodologies.
- Positive Psychology, learning the core concepts of positive psychology and their practical applications across industrial and organizational, health, social, developmental, and educational settings.

WHY STUDY AT THE FACULTY OF PSYCHOLOGY, UKWMS?

The Faculty of Psychology at UKWMS is a **pioneer of Positive Psychology** in Indonesia. It stands as one of the few psychology faculties in the country with a scientific vision deeply rooted in positive psychology, explicitly integrating this approach into the curriculum for undergraduate students. Beyond classroom teaching, the research and community service endeavors of both faculty members and students are driven by the principles of positive psychology.

Furthermore, the Indonesian Positive Psychology Association (AP2I), operating under the Indonesian Psychological Association (HIMPPI), was established at UKWMS in 2017. Since then, lecturers at the Faculty of Psychology have remained highly dedicated to advancing the field, actively participating in various scientific meetings, conferences, and positive psychology organizations at both national and international levels.

In alignment with its mission, the educational process at the Faculty and Undergraduate Psychology Study Program of UKWMS is anchored in **experiential learning**, which emphasizes hands-on, experience-based education. Learning extends far beyond traditional classrooms into active environments, incorporating practical work, role-plays, practitioner-led lectures, field studies, and cross-disciplinary courses. Furthermore, students are provided with valuable opportunities for national and international exchange programs, as well as supervised internships. This comprehensive approach is designed to enrich student experiences, sharpen soft skills, and cultivate a deep sensitivity to real-world contexts, ultimately maximizing their career readiness and employability.

The Faculty and Undergraduate Psychology Study Program at UKWMS train students **to think critically and reflectively** about themselves and their environment. Each student's unique strengths are identified and nurtured through academic learning, personal and character development, and extracurricular activities. Consequently, psychology graduates are expected to develop into professionals with a positive psychology perspective; demonstrate **responsibility and integrity; remain eager to learn and grow; show deep compassion**; and embody the core values of Caring, Committed, and Enthusiastic (PeKA).

To support experience-based and practical learning methodologies, the Faculty of Psychology and the Undergraduate Psychology Study Program at UKWMS provide facilities, including:

- Psychodiagnostics Laboratory
- Observation Room with One-Way Mirrors
- Counseling Room
- Psychological Assessment Laboratory
- Physiological and Experimental Psychology Laboratory
- Computer Room

- Ruang relaksasi
- Ruang *Focus Group Discussion*
- Ruang baca psikologi (buku dan jurnal psikologi).
